

UK Society for Behavioural Medicine
5th Annual Scientific Meeting

in association with the National Prevention Research Initiative (NPRI) Annual Scientific Meeting

Behavioural Medicine: Where next?

University of Southampton, Avenue Campus
14th and 15th December 2009

The Society invites all behavioural and public health researchers, clinical practitioners, epidemiologists, health and clinical psychologists, medical sociologists, health economists, nurses, pharmacists and all other interested colleagues in the field of behavioural medicine to participate in the two day meeting.

Keynote Speakers

- Prof James Raftery,
Professor of Health Technology Assessment, Director of NIHR Evaluation, Trials and Studies Coordinating Centre, University of Southampton
"NIHR evaluation grants: towards a behavioural analysis of funding decisions"
- Prof Rob Horne,
Professor of Behavioural Medicine, Director, Centre for Behavioural Medicine, The School of Pharmacy, University of London
"Improving medication adherence in tomorrow's NHS: Can we? Should we?"
- Prof Christopher Dowrick,
Professor of Primary Medical Care, University of Liverpool
"Embodied suffering: challenging medical perspectives"
- Prof Annie S Anderson,
Professor of Food Choice and Director of the Centre for Public Nutrition Research, Department of Medicine, University of Dundee Ninewells Hospital and Medical School
"Disease Prevention - research, practice, policy and user communities"

Special Workshop

Prof Trudie Chalder,
Professor of Cognitive Behavioural Psychotherapy, Institute of Psychiatry, Academic Department of Psychological Medicine, King's College London
"Developing cognitive behavioural interventions for health outcomes associated with chronic diseases"
